Phillips Pan Head Self Drilling Screws are designed for a many general fastening applications. The Phillips pan head is often preferred over the hex where space or aesthetics are crucial. A Phillips drive can also fit down into areas where a hex drive cannot.

Packaging: Available in 100 pack, 1000 pack or Full Cartons in Bulk.

Material: "Zinc" Plated with a hardened steel drill tip.

NOTE: Add an "M" to the part number for 1000 pack and a MX to the part number for Full Cartons in Bulk

Square Drive Pan Head Self Drilling Screws *DRILFAST GRIPTEK* by Service Warehouse Square Drive Pan Head Self Drilling Screws are "Zinc" plated with a hardened steel drill tip. The Recessed Square Pan Head is often preferred to Phillips or Hex head since a square is virtually impossible to strip. The Recessed Square also holds on the driver well. A Square driver can also fit in areas where a hex driver cannot.

Packaging: Available in 100 pack, 1000 pack or Full Cartons in Bulk.

Material: "The Recessed Square Pan Head is often preferred to Phillips or Hex head since a square is virtually impossible to strip".

NOTE: Add an "M" to the part number for 1000 pack and a MX to the part number for Full Cartons in Bulk

410 Stainless Steel Hex Washer Head Self Drilling Screws

Specifications:

- Meets F.I.P.-1000.7 for torsional strength & drill speed
- Meets SAE J78 for performance & dimensional specifications
- Medium degree of corrosion resistance
- Material Application: Attaches metal or aluminum to metal or aluminum

Packaging: Available in 100 pack, 1000 pack or Full Cartons in Bulk.

Material: 410 Stainless Steel Self-Drilling Unslotted Indented Hex Washer Head, Passivated and Waxed.

NOTE: Add an "M" to the part number for 1000 pack and a MX to the part number for Full Cartons in Bulk

Phillips Bugle Head, Phosphate Coating

Meets ASTM C 1513 for cold-formed steel framing connections
 Meets F.I.P. -1000.7 for torsional Strength & drill speed
 Manufactured to SAE J78 for dimensional specifications
 Meets ASTM A 510 for carbon steel manufacturing
 Meets ASTM C 954 for attaching gypsum board to steel studs
 ICC-ES Evaluation Report: ESR-3528
 Material Application: Attaches gypsum, wood to metal.

Packaging: Available in 100 pack, 1000 pack or Full Cartons in Bulk.

Material: "Black Phosphate Phil Bugle" Plated with a hardened steel drill tip.

NOTE: Add an "M" to the part number for 1000 pack and a MX to the part number for Full Cartons in Bulk
