

How to Hang Chain with a Lagmaster Pole Tool

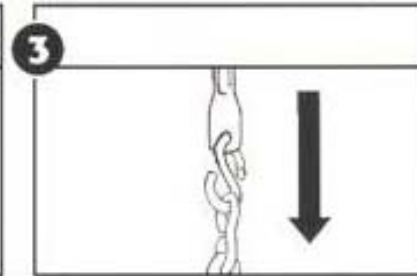

Move ring into the down position with set screw.

1 Secure a #1 1/2 "S" hook to an acoustical eye lag and to the proper size chain for your job. Insert it into the LagMaster Plus.

2 Secure the chain in the magazine so it does not whip when rotating the pole. Now rotate the eye lag screw until it is seated.

3 Lower the Lagmaster Plus.
